EXTRA CO-CURRICULAR ACTIVITIES

Business Associate 08/2020 - Present
Developer Student Club NUS

Project Digital Kampong is a digital platform that aims to connect the 20,000 SMEs under the Federation of Merchants' Associations, Singapore (FMAS), and consumers. My role includes:

- Lead an end-to end worksteam for Project Digital Kampong
- Coordinate and communicate between Federation of Merchant Association Singapore (FMAS), platform users and the technology team.
- Ensure the alignment of goals between FMAS and the technology team.
- Define requirements for the application's features and work closely with the Product Designer and facilitate user acceptance testing.
- Develop the product with the technology team by providing any business-related input and track project progress.

Innovfest Unbound Conference 06/2018

Innovfest Unbound Singapore

- Attended to the needs of the Mr.Simon Topping Sephora speaker, and other speakers
- Organised and executed fireside sessions for C-Level Executives, a platform where speakers can connect and share with delegates in an informal setting.
